REMARKS:

Please review the DCO and Shelter guidelines which I provided at this inspection. Animals must not be forced to lie down on damp, unheated, concrete or stone. For dogs which may be young, thin or older they can lose body heat this way. Mr. Wheeler said he would provide blankets but I did not see any at this inspection. I recommended a cot, or resting boards built like a cot which may be painted, and/or thick heavy blankets which may be washed/disinfected.
