- | | |
|----------------------|--------------|
| 1. Primary Enclosure | Satisfactory |
| 2. Surfaces | Satisfactory |
| 3. Space | Satisfactory |
| 4. Wire Flooring | Satisfactory |

Flooring shall be constructed as to not allow passage of animal feet through any opening in the floor of the enclosure.

Several kittens and small dogs had difficulty walking on the wire flooring as their feet had a tendency to fall through the openings. After bringing this to the attention of the manager, she covered the flooring with pieces of solid plastic matting. One cat/kitten cage has plastic grate flooring that had wide, flat surfaces which allowed for a more comfortable surface and would be more suitable for kittens and small dogs than the wire flooring.
