Additional Information for Inspection:

Number of Animals:

Number of Dogs/Cats at premise: 24 breeders, 16 puppies

REMARKS:

This inspection replaces the original inspection dated 3/8/19

Mr. Risk is still unable to seal the kennel runs due to the low temperatures. He has started to clean the indoor runs with Kennel Sol and deoderizes with K.O.E. This is unacceptable for it smells toxic afterward. He will look into other cleaners and or deoderizers and additional ventilation.

We will be coming back for inspection when weather accommodates the repairs.
