REMARKS:

**The housing facility and the area immediately surrounding it shall be kept in a clean condition in order to maintain a healthy environment. This is accomplished by removing and destroying agents that are hazardous to animal health and by performing regular sanitation. Cleaning must be done frequently to remove disease hazards, pest infestation, and odors. Manure, urine, uneaten food, shed hair, soiled bedding, and any other organic matter must not accumulate inside animal enclosures and around the housing area. These wastes may need to be removed with scrub brushes, detergents and degreasers.**

**Animals must not be forced to lie on damp floors or on unheated concrete or stone. Dry bedding and/or solid resting boards must be provided if needed to conserve body heat. There was no bedding provided to either of the two dogs at the shelter at the time of inspection.**
