

MUNICIPAL SHELTER INSPECTION REPORT - DL-90

Rating: **Unsatisfactory30**

Purpose: **Inspection**

DATE/TOA: **12/18/24 5:00 pm**

**YORKSHIRE MUNICIPAL SHELTER
 3408 BLOCK RD / PO BOX 6
 DELEVAN NY 14042**

Inspector #: **074**

These are the findings of an inspection of your facility on the date(s) indicated above:

- | | |
|--|----------------|
| 1. Shelter is structurally sound | Yes |
| 2. Housing area and equipment is sanitized regularly | No |
| <i>Walls of interior kennels still have muddy pawprints on them; floors of kennels and main shelter still dirty; no lid on trash can; exposed wood frames around baffled doors and between kennels (from dogs chewing/scratching) can not be cleaned/sanitized properly.</i> | |
| 3. Repairs are done when necessary | No |
| <i>Chewed/scratched wood on dividing wall of interior kennels must be repaired. Exterior walls of building (inside outdoor run areas) have been chewed/scratched and insulation is exposed.</i> | |
| 4. Dogs are handled safely | Yes |
| 5. Adequate space is available for all dogs | Yes |
| 6. Light is sufficient for observation | Yes |
| 7. Ventilation is adequate | Yes |
| 8. Drainage is adequate | Yes |
| 9. Temperature extremes are avoided | Yes |
| 10. Clean food and water is available and in ample amount | Yes |
| 11. Veterinary care is provided when necessary | Yes |
| 12. Dogs are euthanized humanely, by authorized personnel | Yes |
| 13. Complete intake and disposition records are maintained for all seized dogs | Yes |
| 14. Dogs transferred for purposes of adoption in compliance with Article 7 | Yes |
| 15. Redemption period is observed before adoption, euthanasia or transfer | Yes |
| 16. Owners of identified dogs are properly notified | Yes |
| 17. Redeemed dogs are licensed before release | Yes |
| 18. Proper impoundment fees paid before dogs are released | Yes |
| 19. Written contract or lease with municipality | Not Applicable |

 Town - City - Village Information for Inspection:

TCV CODE	TCV NAME
0432	Town of Yorkshire

REMARKS:

The housing facility and the area immediately surrounding it shall be kept in a clean condition in order to maintain a healthy environment. This is accomplished by removing and destroying agents that are hazardous to animal health and by performing regular sanitation. Cleaning must be done frequently to remove disease hazards, pest infestation, and odors. Manure, urine, uneaten food, shed hair, soiled bedding, and any other organic matter must not accumulate inside animal enclosures and around the housing area. These wastes may need to be removed with scrub brushes, detergents and degreasers. Trash and waste products on the premises must be stored properly in leak proof, covered containers away from housing and food storage areas. This is necessary to minimize the risks of disease transmission, food contamination and vermin.

All enclosures housing seized dogs must be structurally sound and kept in good repair to keep the dog contained and to protect it from injury. There must be no rust, jagged edges or sharp points. All surfaces within the primary enclosure must be replaced or repaired when worn or damaged. Dirty, rough and absorbent materials protect microorganisms and are difficult to clean, disinfect and deodorize. Wood is not durable enough for flooring and should not be used as such. Repair or replace damaged sections to prevent dogs from ingesting any materials that may come loose from chewing and clawing the enclosure.
