Town - City - Village Information for Inspection:

TCV CODE	TCV NAME
0214	Town of Clarksville
0229	Town of Wirt
0210	Town of Bolivar

REMARKS:

The housing facility and the area immediately surrounding it shall be kept in a clean condition in order to maintain a healthy environment. This is accomplished by removing and destroying agents that are hazardous to animal health and by performing regular sanitation. Cleaning must be done frequently to remove disease hazards, pest infestation, and odors. Manure, urine, uneaten food, shed hair, soiled bedding, and any other organic matter must not accumulate inside animal enclosures and around the housing area. These wastes may need to be removed with scrub brushes, detergents and degreasers. Trash and waste products on the premises must be stored properly in leak proof, covered containers away from housing and food storage areas. This is necessary to minimize the risks of disease transmission, food contamination and vermin. At regular intervals, all stored trash and wastes must be removed from the premises. Good housekeeping and sanitary practices are essential for rodent and pest control. Empty feed bags, cans and any other garbage must not accumulate on the premises.

Records for all contracted municipalities for all dogs seized and held at the shelter for Article 7 reasons must be complete and present at the time of inspection. This often is accomplished by communication between the municipal offices, the contracted shelter and the DCOs. According to Article 7, Section 113.4, every dog control officer, peace officer, when acting pursuant to his special duties or police officer shall promptly make and maintain a complete record of any seizure AND subsequent disposition of any dog.
