REMARKS:

**All enclosures housing seized dogs must be structurally sound and kept in good repair to keep the dog contained and to protect it from injury. There must be no rust, jagged edges or sharp points. All surfaces within the primary enclosure must be replaced or repaired when worn or damaged. Dirty, rough and absorbent materials, protect microorganisms and are difficult to clean, disinfect and deodorize. Repair or replace damaged sections to prevent dogs from ingesting any materials that may come loose from chewing and clawing the enclosure. Wood must be sealed if used in primary enclosure to allow for proper cleaning and sanitization.**

**Records must be complete at the time of inspection. This often is accomplished by communication between the municipal offices, the contracted shelter and the DCO. According to Article 7, Section 113.4, every dog control officer, peace officer, when acting pursuant to his special duties or police officer shall promptly make and maintain a complete record of any seizure and subsequent disposition of any dog.**

**Missing copy of contract with the Town of Allen. Copies of seizure and disposition reports and written contracts must be left at the shelter and available for inspection for all contracted municipalities.**
**According to Article 7 Section 114. Pounds and shelters,**
**1. Each town and city, and each village in which licenses are issued shall, and any other village and any county may, establish and maintain a pound or shelter for dogs.**
**2. In lieu of or in addition to establishing and maintaining such pound or shelter, any town or city, or any village in which licenses are issued shall, and any other village and any county may, contract for pound or shelter services with any other municipality or with any incorporated humane society or similar incorporated dog protective association, or shall establish and maintain, jointly or with one or more other municipalities, a pound or shelter.**
