

MUNICIPAL SHELTER INSPECTION REPORT - DL-90

Rating: **Unsatisfactory30**

Purpose: **Inspection**

DATE/TOA: **5/23/25 10:00 am**

CARLA HARTMAN/C & C DOG BOARDING
C & C DOG BOARDING
11828 YOUNGS RD.
CONEWANGO VALLEY NY 14726

Inspector #: **074**

Inspector #: **79**

These are the findings of an inspection of your facility on the date(s) indicated above:

- | | |
|---|-----|
| 1. Shelter is structurally sound | Yes |
| 2. Housing area and equipment is sanitized regularly | No |
| <i>Dog hair and mud in vacant kennels, strong odor in shelter, unfinished wood and rust do not allow for proper cleaning/sanitization.</i> | |
| 3. Repairs are done when necessary | No |
| <i>All wire crates have bent/damaged and/or rusted bars, doors/frames of concrete runs are rusted, wooden doors of two runs have been chewed/scratched by dogs,</i> | |
| 4. Dogs are handled safely | Yes |
| 5. Adequate space is available for all dogs | Yes |
| 6. Light is sufficient for observation | Yes |
| 7. Ventilation is adequate | Yes |
| 8. Drainage is adequate | Yes |
| 9. Temperature extremes are avoided | Yes |
| 10. Clean food and water is available and in ample amount | Yes |
| 11. Veterinary care is provided when necessary | Yes |
| 12. Dogs are euthanized humanely, by authorized personnel | Yes |
| 13. Complete intake and disposition records are maintained for all seized dogs | Yes |
| 14. Dogs transferred for purposes of adoption in compliance with Article 7 | Yes |
| 15. Redemption period is observed before adoption, euthanasia or transfer | Yes |
| 16. Owners of identified dogs are properly notified | Yes |
| 17. Redeemed dogs are licensed before release | Yes |
| 18. Proper impoundment fees paid before dogs are released | Yes |
| 19. Written contract or lease with municipality | Yes |

Town - City - Village Information for Inspection:

TCV CODE	TCV NAME
0416	Town of Leon

REMARKS:

All enclosures housing seized dogs must be structurally sound and kept in good repair to keep the dog contained and to protect it from injury. There must be no rust, jagged edges or sharp points. All surfaces within the primary enclosure must be replaced or repaired when worn or damaged. Dirty, rough and absorbent materials protect microorganisms and are difficult to clean, disinfect and deodorize. Repair or replace damaged sections to prevent dogs from ingesting any materials that may come loose from chewing and clawing the enclosure.

The housing facility and the area immediately surrounding it shall be kept in a clean condition in order to maintain a healthy environment. This is accomplished by removing and destroying agents that are hazardous to animal health and by performing regular sanitation. Cleaning must be done frequently to remove disease hazards, pest infestation, and odors. Manure, urine, uneaten food, shed hair, soiled bedding, and any other organic matter must not accumulate inside animal enclosures and around the housing area. These wastes may need to be removed with scrub brushes, detergents and degreasers.

There was a strong feces odor upon entering the shelter. Adequate ventilation is necessary to provide a healthy environment and comfortable temperatures to prevent an accumulation of moisture and noxious gases. The ability to control odors in a housing area depends not only on sanitary practices and the number of animals housed, but also on an effective ventilation system. It appears that the ventilation system in place is likely working sufficiently, but sanitary practices must be improved to eradicate existing odors.
