## REMARKS:

Garret Peet, operator, also present for inspection.

Gave copy of Shelter Rescue License Transition Application to Joel Clark.

The housing facility and the area immediately surrounding it shall be kept in a clean condition in order to maintain a healthy environment. This is accomplished by removing and destroying agents that are hazardous to animal health and by performing regular sanitation. Cleaning must be done frequently to remove disease hazards, pest infestation, and odors. Manure, urine, uneaten food, shed hair, soiled bedding, and any other organic matter must not accumulate inside animal enclosures and around the housing area. These wastes may need to be removed with scrub brushes, detergents and degreasers.

All surfaces within the primary enclosure must be replaced or repaired when worn or damaged. Dirty, rough and absorbent materials protect microorganisms and are difficult to clean, disinfect and deodorize. Damaged areas of kennels must be repaired or replaced to prevent dogs from ingesting any materials that may come loose from chewing and clawing the enclosure.

Records must be complete at the time of inspection. This often is accomplished by communication between the municipal offices, the contracted shelter and the DCO. According to Article 7, Section 113.4, every dog control officer, peace officer, when acting pursuant to his special duties or police officer shall promptly make and maintain a complete record of any seizure and subsequent disposition of any dog.

Written contracts or lease agreements for shelter services for all contracted municipalities have expired as of 12/31/25.

According to Article 7 Section 114. Pounds and shelters,

1. Each town and city, and each village in which licenses are issued shall, and any other village and any county may, establish and maintain a pound or shelter for dogs.

2. In lieu of or in addition to establishing and maintaining such pound or shelter, any town or city, or any village in which licenses are issued shall, and any other village and any county may, contract for pound or shelter services with any other municipality or with any incorporated humane society or similar incorporated dog protective association, or shall establish and maintain, jointly or with one or more other municipalities, a pound or shelter.

Copies of seizure and disposition reports and written contracts must be left at the shelter and available for inspection for all contracted municipalities.
