REMARKS:

As per Mr. Keller, shelter manager, the shelter had discussed with Dr. Roeder (Otisville) protocols to follow regarding disease control and prevention. After the complaint was received the shelter closed down the cat areas for any new intakes or adoptions for 2 weeks. They have decided to continue an additional 2 weeks after having many cats/kittens with upper respiratory infections. They are limiting the employees during those areas and they have changed cleaning/sanitizing protocols as well. They were vaccinating the kittens 6-9 weeks for distemper but have changed that to 10-12 weeks of age. The shelter will fax Albany a copy the adoption contract with Ms. Benton.
