- |                                                                                                                                         |                |
|-----------------------------------------------------------------------------------------------------------------------------------------|----------------|
| <b>1. Shelter is structurally sound</b>                                                                                                 | No             |
| <i>The inside wood doors of the kennels are chewed up and nails are sticking out at the bottom which could be a danger to the dogs.</i> |                |
| <b>2. Housing area and equipment is sanitized regularly</b>                                                                             | Yes            |
| <b>3. Repairs are done when necessary</b>                                                                                               | No             |
| <i>See above comments.</i>                                                                                                              |                |
| <b>4. Dogs are handled safely</b>                                                                                                       | Yes            |
| <b>5. Adequate space is available for all dogs</b>                                                                                      | Yes            |
| <b>6. Light is sufficient for observation</b>                                                                                           | Yes            |
| <b>7. Ventilation is adequate</b>                                                                                                       | No             |
| <i>There are no fans in the shelter. One window is present. The shelter had a strong "doggy" odor the day of the inspection.</i>        |                |
| <b>8. Drainage is adequate</b>                                                                                                          | Yes            |
| <b>9. Temperature extremes are avoided</b>                                                                                              | Yes            |
| <b>10. Clean food and water is available and in ample amount</b>                                                                        | Yes            |
| <b>11. Veterinary care is provided when necessary</b>                                                                                   | Yes            |
| <b>12. Dogs are euthanized humanely, by authorized personnel</b>                                                                        | Not Applicable |
| <i>No euthanasias were done in the past year.</i>                                                                                       |                |
| <b>13. Complete intake and disposition records are maintained for all seized dogs</b>                                                   | Yes            |
| <b>14. Dogs transferred for purposes of adoption in compliance with Article 7</b>                                                       | Yes            |
| <b>15. Redemption period is observed before adoption, euthanasia or transfer</b>                                                        | Yes            |
| <b>16. Owners of identified dogs are properly notified</b>                                                                              | Not Applicable |
| <b>17. Redeemed dogs are licensed before release</b>                                                                                    | Yes            |
| <b>18. Proper impoundment fees paid before dogs are released</b>                                                                        | Yes            |
| <b>19. Written contract or lease with municipality</b>                                                                                  | Not Applicable |

Town - City - Village Information for Inspection:

---

<u>TCV CODE</u>	<u>TCV NAME</u>
4616	Town of Hornby

## REMARKS:

The shelter needs some repair work. The inner doors of the kennels are made of wood and have been chewed by the dogs. Sharp splinters are present as are some exposed nails. This could be a hazard to the dogs housed in the kennels. The ventilation could be improved as well.

REPRESENTATIVE PRESENT FOR INSPECTION: **Kurtis Bickel**  
TITLE: **DCO/shelter manager**
