REMARKS:

The dog shelter is very clean and neat! It was suggested to be sure the heat lamps are working for when the colder weather starts. It was also suggested that the dog doors have a guillotine like structure so they can be closed shut during extreme winter weather conditions. The installation of a fan to improve ventilation was also suggested although the air movement was fine at the time of this inspection. There were no dogs housed in the kennel at the time of inspection.

The redemption fees and license requirements that were not enforced are discussed in the DCO inspection report.
