REMARKS:

The shelter is in good condition. It is recommended that the "dog doors" be replaced with metal guillotine like doors. They are currently made of wood and dogs have chewed them so splintered wood is exposed.

The DCO/shelter manager would like to have an outdoor area around the kennel fenced in with solid panels so the dogs can get more exercise. This will help to keep people from putting their hands through the outdoor runs to try to pet dogs or as in some previous instances, owners breaking into the outdoor kennel to take their dogs.
