REMARKS:

DCO intake kennels are structurally sound. One outdoor kennel does not have wire completely over the top and should not be used for dogs suspected of climbing. The main kennel indoor and outdoor runs that were not structurally sound are not in use. The shelter is in the process of dismantling and replacing all of the wire doors. The run where the concrete is to be repaired has signage 'do not use'. The freestanding wire enclosure in the back of the kennel has been dismantled and is no longer in use, animal waste has been removed.

Town of Wells is operating its own shelter.
