MUNICIPAL SHELTER INSPECTION REPORT - DL-90

Rating: **Satisfactory182** Purpose: **Inspection**

DATE/TOA: **10/13/15 5:15 pm**

TROUPSBURG MUNICIPAL SHELTER
3189 CTY. RTE. 83
TROUPSBURG NY 14885

Inspector #: **809**

These are the findings of an inspection of your facility on the date(s) indicated above:

1. Shelter is structurally sound	Yes
2. Housing area and equipment is sanitized regularly	No
There were cobwebs on the exhaust fan and in the kennels. Only two dogs have been in the kennel in the past year,	
3. Repairs are done when necessary	No
The dog doors have been chewed. It is recommended that the wooden dog doors be replaced with stainless steel dog doors.	
4. Dogs are handled safely	Yes
5. Adequate space is available for all dogs	Yes
6. Light is sufficient for observation	Yes
7. Ventilation is adequate	Yes
8. Drainage is adequate	Yes
9. Temperature extremes are avoided	Yes
10. Clean food and water is available and in ample amount	Yes
Procure new water and feed bowls. The plastic is chewed up on the bowls that are there now. It is recommended that stainless steel feed bowls be used and ceramic water bowls since they are heated in the winter time.	
11. Veterinary care is provided when necessary	Not Applicable
12. Dogs are euthanized humanely, by authorized personnel	Not Applicable
13. Complete intake and disposition records are maintained for all seized dogs	Yes
14. Dogs transferred for purposes of adoption in compliance with Article 7	Yes
15. Redemption period is observed before adoption, euthanasia or transfer	Yes
16. Owners of identified dogs are properly notified	Yes
17. Redeemed dogs are licensed before release	Yes
18. Proper impoundment fees paid before dogs are released	Not Applicable
19. Written contract or lease with municipality	Not Applicable

Town - City - Village Information for Inspection:

TCV CODE	TCV NAME
4625	Town of Troupsburg

REMARKS:

The shelter is in good condition. It is recommended that the interior be cleared of cobwebs and dust. The dog doors are chewed since they are made of wood. It is recommended that consideration be given to replacing them with metal doors. The outside of the kennel should be cleaned as well. The weeds should be cut and the debris (old shirt, bags, pieces of plastic) strewn around the kennel should be picked up. Loose pieces of metal were seen in one of the runs also. There is an old bird nest on the top of the wire on one of the outside kennels.

All paperwork is in order,
