These are the findings of an inspection of your facility on the date(s) indicated above:

1. Shelter is structurally sound	Yes
2. Housing area and equipment is sanitized regularly	Yes
3. Repairs are done when necessary	No

At the rear of the kennel building, in two outdoor runs, the wall and door openings have very large holes where dogs have chewed and one other run has a hole in the wall approximately six inches in diameter. Several run door support posts have a 2-3 foot area that are rusty and becoming pitted and need resurfacing, these are also in the outdoor runs to the rear of the kennel building. There are large cracks in the concrete of the run floors that need to be filled in, a few in the outdoor runs at the rear of the kennel building and a few in the outdoor runs at the front of the kennel building. The surfaces outlined above cannot be effectively cleaned and disinfected to prevent the spread of disease.
