## REMARKS:

**N/A=DCO handles notifying owner of identified dogs seized.**

**Latches are installed on all but one large run that is being used for storage. This is the run that that will need plexiglass installed where the vertical steel bars connect to the support pipes, to prevent a dog's limb or head from becoming lodged. All of the latches secure the doors firmly and all have hooks to prevent dogs from flipping the latches up. The hot water is operational to effectively clean food & water receptacles.**
