REMARKS:

A beagle was diagnosed in December 2010 with type 2 Adenovirus. Complete veterinary records from Gerber Animal Hospital and the SPCA are on file regarding the diagnosis and treatment of this dog. The dog is being held in a room that has limited access to employees.

There was no evidence of disease seen in any animals during this inspection.

The heating/cooling/ventilation system was revamped and upgraded 8 months ago.

A log book is available to everyone where volunteers can record their observations on the health and behavior of the animals.
