REMARKS:

Only 2 kennels are currently being used/approved to be used. One of the kennels was not cleaned and properly disinfected after the last dog left as there was old, dried vomit in the indoor portion and old feces in the outdoor portion. The other run had exposed wood with a small hole in the wall on the inside portion making proper disinfection difficult to achieve. It should also be noted that there was no disinfectant available for use of cleaning the shelter and kennels.
