REMARKS:

Previous deficiencies noted on 5/28/2019 inspection report have been corrected. Affected area of the roof appears to have been repaired - observed new roofing material covering the area previously cited for leaking. Michael Holland stated that roof is no longer leaking.

"Vacant" side of shelter did not have any dogs housed upon my arrival for inspection. "Vacant" side of shelter must NOT be used until all repairs are completed on that side of the shelter.

Upon my arrival all dogs were being kept on the "Main" side of the shelter where they are required to be housed.

Kennels were being cleaned upon my arrival at the shelter.
