2. Housing area and equipment is sanitized regularly — Not Applicable

See above comment.

3. Repairs are done when necessary — No

The drain still has not been repaired. The drain is the most important issue right now.

4. Dogs are handled safely — Not Applicable

I did not physically inspect the shelter this time around.

REMARKS:

I received a letter from Mr. George Ott about the Wayland Municipal Shelter. He said that there were no funds available to repair the drain in the kennel due to high fuel expenses and highway costs for plowing and sanding because of the severe winter. The drain was to have been repaired by May 15th, according to the timeline given to me by the town supervisor. He asks for our patience while they try to secure the funds to repair the remaining deficiencies in the kennel.

I will accept his request at this time. However, I have scheduled another inspection in six months.
