**CARL TUTTLE**
**7911 EAGLE VALLEY ROAD**
**SAVONA NY 14879**

Inspector #: **847**
Inspector #: **64**

These are the findings of an inspection of your facility on the date(s) indicated above:

**1. Shelter is structurally sound** Yes

**2. Housing area and equipment is sanitized regularly** No

*Dirt floors are not acceptable. Dirt is organic material and cannot be disinfected properly. Dogs must be housed where adequate sanitiation is achievable. Observed dead rat in bucket of water during inspection.*

**3. Repairs are done when necessary** Yes

*Shed structure is in progress.*

**4. Dogs are handled safely** Yes

**5. Adequate space is available for all dogs** No

*All kennels were full and there was not additional space if another seizure was to be picked up.*

**6. Light is sufficient for observation** Yes

**7. Ventilation is adequate** Yes

**8. Drainage is adequate** No

*Dirt flooring does not allow for proper drainage.*

**9. Temperature extremes are avoided** No

*Outdoor enclosures do not provide shelter from the elements. No roof was provided for one dog.*

**10. Clean food and water is available and in ample amount** No

*Food must be stored in a closed container in order to prevent spoilage and vermon which can spread contagious diseases.*

**11. Veterinary care is provided when necessary** Yes

**12. Dogs are euthanized humanely, by authorized personnel** Yes

**13. Complete intake and disposition records are maintained for all seized dogs** Yes

**14. Dogs transferred for purposes of adoption in compliance with Article 7** Yes

**15. Redemption period is observed before adoption, euthanasia or transfer** Yes

**16. Owners of identified dogs are properly notified** Yes

**17. Redeemed dogs are licensed before release** Yes

**18. Proper impoundment fees paid before dogs are released** Yes

**19. Written contract or lease with municipality** No

*No current contract on file.*

REMARKS:

**ACCORDING TO NYCRR PART 77.1 and 77.2 (Standards for the Care of Seized Dogs): "...Shall be properly cared for, sheltered, fed and watered." Shelter facility must have provisions available to avoid temperature extremes for unacclimated, young, sick or aged dogs. Auxiliary ventilation, such as fans, blowers, or air conditioning must be added to keep the animal cool, in temperatures 85 F and up. I recommend a thermometer be installed in the new housing area to monitor temperature. Discussed adding supplemental heat in the garage during the colder months.**

**According to Article 7 Section 114.1 and 114.2 a current written lease must be on file at the shelter during inspection.**
