**REMARKS:**

An unannounced inspection was done of the Canisteo Shelter. All of the cages were full and there were two dogs in each of two of the cages. Food and water was available and the runs were likely cleaned recently. There were a few piles of fresh feces in two of the pens. The dog doors were not open so the dogs could not go outside. There is still a very strong "doggie odor" in the kennel.

I met with shelter manager Gary Hadsell on 6/17/2011 and went over his paperwork which was in order. He said that the dog doors are not left open because children from town harass the dogs and throw rocks at them when they are in their outside runs. Fencing will be erected to alleviate this situation.
