REMARKS:

A mistake was made on one record, discussed importance of record accuracy. Discussed with DCO that kennels should be kept cleaned and disinfected and ready for dogs to come in. Three cages were not cleaned and ready for new dogs. Lastly, discussed the importance of using the dog boxes instead of the front of the vehicle for transporting dogs. DCO understands that parvovirus, and other diseases can be transmitted from dog to dog and the seat of the vehicle is not disinfected. This coupled with safety of the DCO can be a liability. Finally, discussed keeping up on maintenance on flooring since paint is chipping, exposing concrete that is not disinfected.
