 Town - City - Village Information for Inspection:

TCV CODE	TCV NAME
2912	Town of Wilson

REMARKS:

Large crack in the floor of the shelter extends into one dog kennel, exposed concrete is not able to be disinfected properly. Exposed wood in the back of the walls of the kennels is not able to be disinfected properly.

Heat source available is not sufficient to protect dogs from temperature extremes. Provisions must be available to protect unacclimated, young, sick or aged dogs. NYCRR Part 77.1 & 77.2

Discussed options to correct the issues noted above.

Records must be complete at the time of inspection. This is often accomplished by communication between the municipal offices and the DCO.

According to Article 7 Section 113.4 and 113.5, all records must be complete and include the complete disposition (what happened to the dog). When a dog is redeemed by the owner (returned to the owner,) according to Article 7 section 117.4, 117.6, and 117.9 the dog must be licensed before released. The dog license number, the name of the person/clerk/town who issued the license and the date the dog was redeemed is required on the disposition record. According to Article 7 section 117.4, Dog Control, municipal shelters and municipalities may not waive impoundment fees or charge less than the statutory rates for impoundment fees unless a local ordinance has been written. For all dogs which are seized (picked up) up for Article 7 reasons, a disposition report must be filled out and an impoundment fee collected before returning the dog to the owner. All impoundment fees collected must be recorded with the disposition reports in order to determine this at the time of inspection. The shelter cannot release an "Article 7" dog unless the owner shows proof of current license, identification and proof that the impoundment fee has been paid. According to Article 7 Section 113.4 and 113.5, all records must reflect this information has been verified and be included in the disposition report. For dogs not redeemed by owner, the disposition record must include the outcome of the dog, such as adoption or transfer information.
