| 18. Proper impoundment fees paid before dogs are released | Yes |
| 19. Written contract or lease with municipality | No |
| <i>Missing written contract with Town of Cherry Creek.</i> | |

 Town - City - Village Information for Inspection:

TCV CODE	TCV NAME
0606	Town of Cherry Creek

REMARKS:

All enclosures housing seized dogs must be structurally sound and kept in good repair to keep the dog contained and to protect it from injury. There must be no rust, jagged edges or sharp points. Damaged areas of kennels must be repaired or replaced to prevent dogs from ingesting any materials that may come loose from chewing and clawing the enclosure. Wood is not durable enough for flooring and should not be used as such; it must be sealed if it is used for walls. The walls must be high enough to allow for animal comfort yet prevent animal escape or entry. Securely enclosing the tops with panels of chain-link or sturdy wire mesh will hinder escapes and reduces the height of the walls needed. Outdoor enclosures must be locked to prevent theft or unauthorized release of the dog. Entry by other persons and animals must also be restricted to prevent injuries and disease exposures to them or the impounded dog.

A written contract or lease agreement for shelter services for the Town of Cherry Creek has not been provided for 2023.

According to Article 7 Section 114. Pounds and shelters,

1. Each town and city, and each village in which licenses are issued shall, and any other village and any county may, establish and maintain a pound or shelter for dogs.
2. In lieu of or in addition to establishing and maintaining such pound or shelter, any town or city, or any village in which licenses are issued shall, and any other village and any county may, contract for pound or shelter services with any other municipality or with any incorporated humane society or similar incorporated dog protective association, or shall establish and maintain, jointly or with one or more other municipalities, a pound or shelter.
