REMARKS:

**Repairs:**

**The floor drains in kennels are completely rusted: Drains in kennels 14, 16, 33, 34, 35, 36 & 37 have been sand-blasted and sealed since last inspection.**

**Multiple kennels have guillotine doors with rust on them and need maintenance.**

**The cinder blocks in the kennel area are not sealed and porous. It is recommended that porous surfaces be sealed to prevent further water damage and allow for thorough sanitation. It would also allow for quicker drying times to alleviate extended damp conditions in the housing areas. One kennel floor has been sealed with three different materials to test for efficacy since the last inspection.**
