

BAG CHECK AND GATE SECURITY SERVICES AT THE NEW YORK STATE FAIR FAIRGROUNDS

RFP #0141

Addendum 1 Issued April 20, 2016 Questions and Answers

**Please note that the question(s) that follow are taken directly from the email(s) received by the Department.*

1. With regards to IFB#0141, has the Electronic (Pedestrian and Vehicle) Security portion of this project been awarded. The current only refers to security guard services. When I received this bid request, I was under the impression that part of the bid was for Electronic Security (ie; CCTV, Access Control, etc.), but all I saw was Security Guard services. If there is no Electronic Security, then I received this in error. **This is not an IFB for electronic security. Please see Section 2 of the IFB for a description of work to be performed for this engagement.**
